All capitalized terms contained in this supplement have the meanings given to those terms in the Information Folder unless otherwise indicated herein.

For a description of each New Fund, please see the Summary Fact Statements later in this supplement. The New Funds are offered on the same basis as other Funds in the Information Folder, and all references in the Information Folder to the "Funds" or a "Fund" should be interpreted to include the New Funds.

Premiums and Deposits

You may make lump sum or regular Premium deposits to your Contract. We will deposit any Net Premiums into a New Fund as directed by you. The notional Units in the applicable Fund Class or Fund Classes will be allocated to your Contract.

If you allocate a Deposit to Units of a New Fund, you must deposit a minimum Premium of \$500 per Fund Class. You may deposit additional Premiums of at least \$100, by a lump sum, or \$50 by a PAC plan. See Section 2.1 of the Contract.

Sales Charges

There are two different sales charge options for the New Funds available through the Contract.

If you select the Initial Sales Charge option, a sales charge of up to 5% of the Premium may be deducted from your Premium at the time the Premium is paid. You can negotiate with your Distributor the amount of sales charge paid by you at this time. The sales charge amount is deducted from the amount of your Premium and the net amount (the Deposit) is then used to allocate Units to the Contract according to your chosen investment options.

If you select the Deferred Sales Charge option, you may be required to pay Redemption Fees at the time Units are Redeemed from the New Fund. See

Section 11.1 of the Contract for additional information concerning the calculation of the Redemption Fees. We reserve the right to change the Redemption Fees from time to time on 60 days written notice to you. Any such change will apply only to Deposits made after expiry of the notice period. No sales charge amount is deducted from the amount of your Premium.

Minimum Guaranteed Benefits and Options

Minimum Guaranteed Benefits

The Contract provides minimum guaranteed benefits on a Class Deposit Maturity Date and on the death of the Annuitant if the Annuitant should die prior to the Contract Maturity Date (see Section 12 of the Contract) and other cash value benefits which are not guaranteed.

You may choose from two Guarantee Options which affect the level of your guaranteed benefits. You make this choice by selecting either Class B Units (which carry a Combined Guarantee Option) or Class C Units (which carry a Basic Guarantee Option) of the New Funds. See "Guarantee Options" in Section 12.4 of the Contract. You may reclassify Units from one Class to another at certain times as determined by us and with certain consequences. See "Change of Guarantee Option" in Section 12.9 of the Contract.

Optional 4% Annual Automatic Death Benefit Reset

You may select the optional 4% Annual Automatic Death Benefit Reset rider which is described in Section 13 of the Contract.

Earnings Enhancement Benefit

You may select the optional Earnings Enhancement Benefit rider which is described in Section 14 of the Contract.

Guaranteed Minimum Withdrawal Benefit (GMWB)

You may select the optional Guaranteed Minimum Withdrawal Benefit rider for some or all of the Units of the New Funds allocated to your Contract which is described in Section 15 of the Contract. Below is the categorization we currently give to each New Fund and its fixed income weighting for purposes of the GMWB rider.

Servicing Commissions

The rates for the servicing commissions paid by CI to Distributors in respect of Units of the New Funds are set out below.

	Initial Sales Charge units	Deferred Sales Charge units
All New Funds; except SunWise Elite CI Signature Corporate Bond Corporate Fund	1%	1/2%
SunWise Elite CI Signature Corporate Bond Corporate Fund	1/2%	1/4%

The annual service fee rate for Deferred Sales Charge Units changes to the rate for Initial Sales Charge Units after the Units have been allocated to your Contract for seven years.

The servicing commission we pay to your Distributor in respect of PMA Units is negotiated between you and your Distributor and can be a maximum annual rate of 1%.

Registered Contracts

Your Contract may be issued as a Registered Contract or as a Non-Registered Contract as described in Sections 6 and 7 of the Contract. If you select a

Registered Contract, certain contractual benefits will be modified in accordance with an endorsement reflecting that type of Registered Contract.

Fund Class Charges and Fees

Management fees and insurance fees are paid out of the assets of the Fund Class to which they are allocated and each Underlying Fund is responsible for paying its management fees. The combined fees of a Fund Class are the sum of (i) the management fee and the insurance fee of the Fund Class and (ii) a proportionate share (based on the Fund Class Value of each Fund Class on the previous Valuation Date) of the management fee of the Underlying Fund. The insurance fee of the Fund Class is a charge by Sun Life for the applicable Guarantee Option in respect of that Fund Class.

Sun Life reserves the right to change, from time to time, the management fee and the insurance fee applicable to any Fund Class or Classes. Any such change will be disclosed in the next year end statement. If the change increases the management fee or results in an insurance fee that exceeds the insurance fee limit, Sun Life will comply with the Fundamental Change provisions set out in Section 4 of the Contract. The percentages of the management fee and the insurance fee for each Fund Class of the New Funds are set out below (with the insurance fee limits noted in parenthesis). See Section 10 of the Contract for more information.

FIDELITY CANADIAN BOND FUND

Investment Objective

This fund aims to provide a steady flow of income. It invests primarily in Canadian fixed-income securities.

Investment Policy

We use the DEX Universe Bond index as a guide to structuring the fund and selecting investments. We manage the fund to have similar overall interest rate risk to the index. We allocate the fund's assets among different market sectors, like corporate or government securities, and different maturities based on our view of the relative value of each sector or maturity.

When buying and selling fixed-income securities, we analyze the security's features, its current price compared to its estimated long-term value, the credit quality of the issuer and any short-term trading opportunities resulting from market inefficiencies. The fund may invest up to approximately 30% of its assets in foreign securities.
